*Reproduction of web colors are not always "what you see is what you get" because colors on your monitor and the color produced physically can, and most likely will, vary. This is because different devices have different color "languages" and will output color differently. To get a better result it is important to choose your colors CAREFULLY. We cannot be held responsible for colors that are off a few shades due to the vast complexities of media differences. Choose a Pantone or Sherwin Williams colors to get the best result, or contact us and we'll be happy to send you a sample.
