

Chain Accessories Installation Instructions

Bollard Connector Kit:

Step #1: Fully extend chain to make sure there's enough length and slack to fit the area

Step #2: Wrap the rubber Bollard Connector around the necessary bollard, pole or post by inserting the locking mechanism into the desired opening

Step #3: Once the Bollard Connector is in place, hook the chain onto the slide hooks on each post and the chain will be in place

Loading Dock Chain Kit:

Step #1: Fully extend chain to make sure there's enough length and slack to fit the area

Step #2: Attach the Neodymium magnet rings at the desired height on the steel sidings by the dock door or aisle way

Step #3: Once the magnet rings are in place, attach the end of the chain to the carabiners and then attach the carabiners to the magnet rings

Step #4: Magnets can be moved up and down to desired height of the chain
