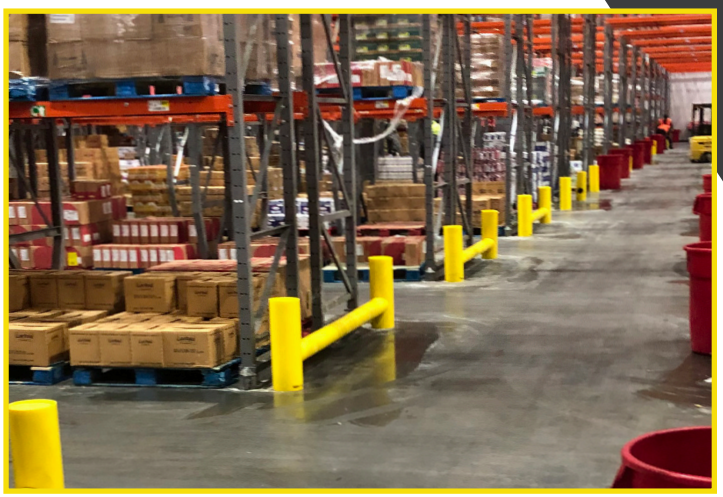
STANDARD GUARDRAIL

- Engineer Tested to withstand multiple collisions from 12,000lbs forklift at 4mph when cored
- Fully assembled upon arrival which reduces installation time and costs
- More cost-effective guardrail solution
- Standard sizes and heights in stock for when you need immediate protection

HEAVY DUTY GUARDRAIL

- Optimum protection for workers, expensive equipment, & structures
- Engineer Tested to withstand multiple collisions from 12,000lbs. forklift at 8mph when cored
- Minimal deflection which will maximize your floor space and limit damage
- No assembly required for quick, cost-effective installation

RACK SYSTEM GUARDRAIL


- Ideal guarding for the most vulnerable pallet rack uprights -the end of the aisle-
- Provides the necessary bright yellow color warning to row-ends and aisles
- Easy-to-install with no concrete or back-filling required (core & drop install)
- Rounded end posts for high traffic forklift corners
