

# Removable Locking Bollard Installation Instructions

(Core Drill)

**Tools Required:** Jack Hammer, Shovel, Post Hole Digger, Wheel Barrel, Water, Cement

## Step #1

Core, cut or dig approximately 10" round hole, 22" deep through existing surface

## Step #2

Insert steel floor sleeve into hole, center and level as needed

## Step #3

Pour concrete level with top of steel floor sleeve, with the cap in the down position

Check the poured concrete to ensure it is not interfering with the function of the cap

## Step #4

After concrete cures, drop in Removable Locking Bollard
