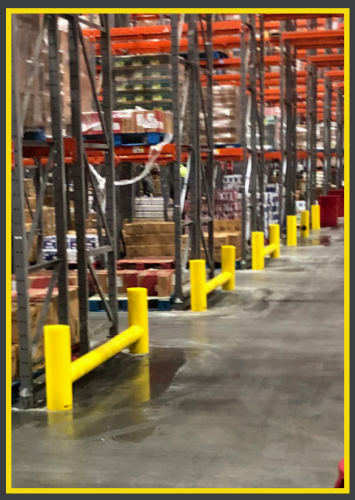
INDUSTRIAL GUARDRAIL SYSTEMS

STRONGEST ON THE MARKET | **CUSTOM SIZES & CONFIGURATIONS** | **MADE IN THE U.S.A WITH U.S. STEEL**



HEAVY DUTY GUARDRAIL

- Optimum protection for workers, expensive equipment, and structures
- Engineer Tested to withstand multiple collisions from 12,000lbs. forklift at 8mph when cored
- Minimal deflection which will maximize your floor space and limit damage
- No assembly required for quick, cost-effective installation

RACK SYSTEM GUARDRAIL

- Ideal guarding for the most vulnerable pallet rack uprights -the end of the aisle-
- Provides the necessary bright yellow color warning to row-ends and aisles
- Easy-to-install with no concrete or back-filling required (core & drop install)
- Rounded end posts for high traffic forklift corners

2 COLOR OPTIONS

OSHA YELLOW

GUNMETAL GRAY

MORE OPTIONS

GOAL POST GUARDRAIL

- Strongest protection for your industrial doors - overhead, dock, high-speed, cold storage and fabric doors
- Eliminate costly door-repairs and inoperable doors due to forklift impacts
- Withstands extreme temperatures and ships in three quick-to-install sections
- Embedded spools are available for cold storage facility installations

STANDARD GUARDRAIL

- Engineer Tested to withstand multiple collisions from 12,000lbs forklift at 4mph when cored
- Fully assembled upon arrival which reduces installation time and costs
- More cost-effective guardrail solution
- Standard sizes and heights in stock for when you need immediate protection

HIGHWAY GUARDRAIL

- Low-impact, outdoor protection for parking lots, vehicle entrances, ramps, and buildings
- To protect against the elements all steel W-beams, posts, terminal ends, and hardware are hot dipped galvanized
- Standard sizes and components are in stock and ready to ship for your convenience
