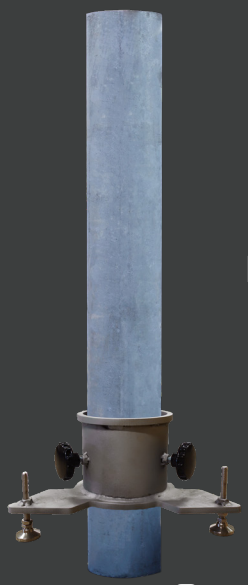
THE BOLLARD *CADDY*

The reusable bollard installation holder is an alternative to building wooden braces or frames and is designed to make bollard installation faster and cheaper.



DURABLE DESIGN

Made from U.S. Steel. Reuse on every installation. Built to last.

EASY INSTALL

Speed up the installation. No more building braces and frames.

LEVEL FOOTING

Designed to hold steel bollard at 90° angle while adding concrete.

Ease The Installation Process

Save Time & Money • Patent Pending • Made for 6” bollard

MADE IN USA

TIME SAVER
No more wasting time building wooden braces. Reuse caddy on every job.

6” STEEL BOLLARD
